

## Better than that

It seems you don't care  
Left me in the morning, maybe it was just an affair  
Without goodbye  
There're still wrinkles in the mattress where you used to lie

Just as you are  
Well we screwed up back then  
Just as you were  
Was it more than just friends?  
Just as you are  
What is left in the end?

Killer love's just killed tonight  
Could have felt so many highs  
Can we make it up and feel better, better than that  
I don't want to close that door  
We could be so much more  
Can we make it up and feel better, better than that

*To feel better, better than that*  
*To feel better, better than that*

Should've stayed in LA  
It's raining but it's better to see the sun at some point again  
Just as I am  
I'm only thinking about the reasons sitting here alone in the train

Just as you are  
Well we screwed up again  
Just as you were  
Was it more than just friends?  
Just as you are  
What is left in the end?

Killer love's just killed tonight  
Could have felt so many highs  
Can we make it up and feel better, better than that  
I don't want to close that door  
We could be so much more

Can we make it up and feel better, better than that

*Better, better than that*

*Better, better than that*

*To feel better, better than that*

*To feel better, better than that*

*To feel better, better than that*
